

We could double down or triple or quadruple down on the energy sources of the last two centuries, or we could take steps to reduce our dependence on fossil fuels and have a sustainable energy future.

The last few years have seen tremendous progress in harvesting the renewable energy potential of our oceans. We should oppose the unwise expansion of offshore oil and gas leasing and drilling.

IRS NOT ACCOUNTABLE

(Mr. GIBBS asked and was given permission to address the House for 1 minute.)

Mr. GIBBS. Madam Speaker, have you tried to use the excuse the dog ate your homework? Well, Lois Lerner, the former director of the exempt organizations of the IRS seems to think the excuse that she can't find her emails is acceptable to tell Congress.

When the House requested access to Ms. Lerner's emails, the IRS had known for months that the hard drives of hers and many other officials had conveniently been destroyed. Government agencies are missing accountability.

The American people have constantly been looking for answers as to why the IRS chose to harass taxpayers based on their political beliefs and restrict their First Amendment rights.

The IRS is currently tasked with enforcing the failing health care law, and now, they are attempting to regulate free speech. The double standard that plagues the IRS must end. Asking Americans for years of paperwork regarding their taxes is simply hypocritical when the IRS is unable to produce information required of them.

I know the investigations conducted by the various House committees will help to expose what really happened and work to prevent this kind of government overreach from occurring again. Government needs to be transparent and accountable to the American people.

THE REPUBLICAN BUDGET

(Mr. YARMUTH asked and was given permission to address the House for 1 minute.)

Mr. YARMUTH. Madam Speaker, today, some of my colleagues from across the aisle unveiled their proposal to address poverty in America. It is ironic because, tomorrow, they will vote to push 6 million children deeper into poverty by excluding their low-income families from the child tax credit.

I just wish they would explain what they will do differently from their current budget, which is a hard-hearted and direct attack on the poor.

Two-thirds of the cuts in the Republican budget come from our social safety net, including Medicaid, nutrition assistance, and education. Their budget ends the Medicare guarantee and raises prescription drug costs for seniors.

It raids Pell grants, raises the already overwhelming cost of college, and slashes investments in jobs to rebuild our national infrastructure, and it does this to cut taxes by one-third for the well-off and well-connected, while continuing to reward companies that ship our jobs overseas.

Madam Speaker, cutting services for low-income Americans, blocking a livable wage, and increasing health care costs isn't a path to prosperity. It is a promise of poverty.

If we expect to have any hope of reducing poverty in generations to come, we need a strong safety net today, and we need to invest in quality education and good jobs to create opportunities for the future. Democrats promise to do that.

WITH GREAT POWER COMES GREAT RESPONSIBILITY

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Madam Speaker, the IRS plays an essential role in the Obama administration. They are responsible for enforcing the failing health care law, interfering with free speech, and handling finances for the government.

Sadly, it has become apparent this organization is corrupt and, therefore, is unable to fulfill its duties to the American people.

The House has revealed a clear record of IRS harassment based on political belief, threatening jobs. Claims of missing emails are inexcusable. Proof of deliberate delinquency are apparent. The IRS is entrusted with great responsibility, yet their actions disrespect the American people they are supposed to serve.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war of terrorism.

My sympathy to the family and friends of Earl Brown, a dedicated patriot of Brookland Baptist Church.

TRANSPORTING LIQUID NUCLEAR WASTE

(Mr. HIGGINS asked and was given permission to address the House for 1 minute.)

Mr. HIGGINS. Madam Speaker, I rise to express my serious concerns with the Department of Energy's proposal to transport liquid nuclear waste from Ontario's Chalk River Research reactor to the Department of Energy's Savannah River Site, across several States and over the Peace Bridge, which is located in my western New York congressional district.

Unlike spent nuclear fuel, which can be safely transported in solid form, in liquid form, it is more radioactive and complicated to transfer. Most concerning is that in the event of a spill, liquid highly-enriched uranium would be difficult to contain.

A major contamination in the Buffalo-Niagara region could potentially have dire consequences on the Great Lakes, the Niagara region, and the greater Buffalo-Niagara population.

Madam Speaker, a plan that carries this level of risk should not be done without a thorough review. The Department of Energy must undertake a formal environmental impact statement before proceeding.

THE IRS SCANDAL

(Mr. WALBERG asked and was given permission to address the House for 1 minute.)

Mr. WALBERG. Madam Speaker, they say where there is smoke, there is fire, and as far as the IRS is concerned, with their credibility, they are engulfed in flames.

Just this week, IRS staff testified to the Oversight Committee that they may still have some of Lois Lerner's missing emails, despite earlier claims they were lost forever.

On Tuesday, the Ways and Means Committee discovered Lerner's hard drive was only "scratched," information that conflicts with their earlier statements that the data was unrecoverable.

It is clear the IRS refuses to be fully forthcoming, and their behavior continues to raise serious questions about potential criminal wrongdoing and the targeting of conservative groups.

Here in the House, we are committed to oversight, transparency, and ensuring we get the answers we need in the pursuit of understanding what really happened.

THE RENEWABLE FUEL STANDARD

(Mr. BRALEY of Iowa asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BRALEY of Iowa. Madam Speaker, I rise to speak out against the misguided efforts to reduce or repeal the Renewable Fuel Standard. The RFS was enacted in 2005 to improve our economy, our environment, and our energy independence.

However, it is currently threatened by an EPA draft proposal that would roll it back, and as highlighted in a recent op-ed by Senators CHUCK GRASSLEY and AMY KLOBUCHAR, by Big Oil's attempt to protect its market share and profits at the expense of American consumers.

As they wrote, "The Federal law has helped to displace oil imports, increase domestic energy security, create jobs in rural America, curb pollution with cleaner-burning fuel, and lower prices at the pump for consumers."

In Iowa, biofuels have created 73,400 jobs, pumping \$5 billion of wages annually into our economy, and \$19.3 billion of economic activity annually. In the United States, it has created 852,000 jobs, \$46.2 billion in wages, and \$185 billion in economic activity.
